SCREENS

Each finding is pinned on the side-by-side screenshots and detailed below with its exact fix and severity.

△ Scope: Global — these elements repeat across the portal; fix once. The board shows a representative frame (Central Admin — Dashboard) — open it via 'Figma frame ↗'; each marker's number matches its TG-GLOBAL id.

1 Masthead co-branding lockup removed

Content & Iconography · **Global** — applies to every screen with this element

DESIGN — FIGMA INTENT

The masthead right zone carries the SAMAVESH co-branding lockup — the Digital India logo + the SAMAVESH logo — before the user/avatar block.

BUILD — LIVE

Both logos are omitted portal-wide; only the user name/role/avatar remain on the right. (Present on the login hero, missing on every authenticated inner page.)

FIX
Restore the Digital India + SAMAVESH co-branding lockup in the masthead right zone per the design, on every screen.

SCOPE: GLOBALMajorTG-GLOBAL-001

2 Masthead identity lockup reduced from 3 lines to 2

Content & Iconography · **Global** — applies to every screen with this element

DESIGN — FIGMA INTENT

'Government of India / Ministry of Social Justice & Empowerment / Department of Social Justice & Empowerment' (Department line in bold navy).

BUILD — LIVE

Only 'Government of India / Ministry of Social Justice & Empowerment' — the Department line is dropped and the bold weight moves up a line.

FIX
Render the full 3-line identity lockup with the Department line bold, per the design masthead.

SCOPE: GLOBALMinorTG-GLOBAL-002

3 KPI cards lost their metric icon + trend line

Components & States · **Global** — applies to every screen with this element

DESIGN — FIGMA INTENT

Each dashboard KPI card shows a leading metric icon and a delta/trend line ('▲ +14.5% vs last month' or a contextual subtitle).

BUILD — LIVE

KPI cards render only a label + number — the icon and trend/subtext are dropped, losing the at-a-glance comparison hierarchy.

FIX
Restore the KPI card icon and trend/delta subtitle per the design KPI component. Applies to all role dashboards.

SCOPE: GLOBALMajorTG-GLOBAL-003

4 Pagination active-page state differs

Components & States · **Global** — applies to every screen with this element

DESIGN — FIGMA INTENT

Active page = outlined (white fill, navy border, navy numeral).

BUILD — LIVE

Active page = a navy-filled chip with a white numeral.

FIX
Match the pagination active-page control to the design's outlined style. Applies to every paginated table.

SCOPE: GLOBALMinorTG-GLOBAL-004

5 Data-table header fill inconsistent across the build

Color & Token · **Global** — applies to every screen with this element

DESIGN — FIGMA INTENT

Table headers use a light neutral-gray fill (≈#f9fafb, Stroke/50).

BUILD — LIVE

Dashboard queue tables use a near-neutral header, but the User/Role/Tenant management tables use a light blue header tint (≈#dbeafe).

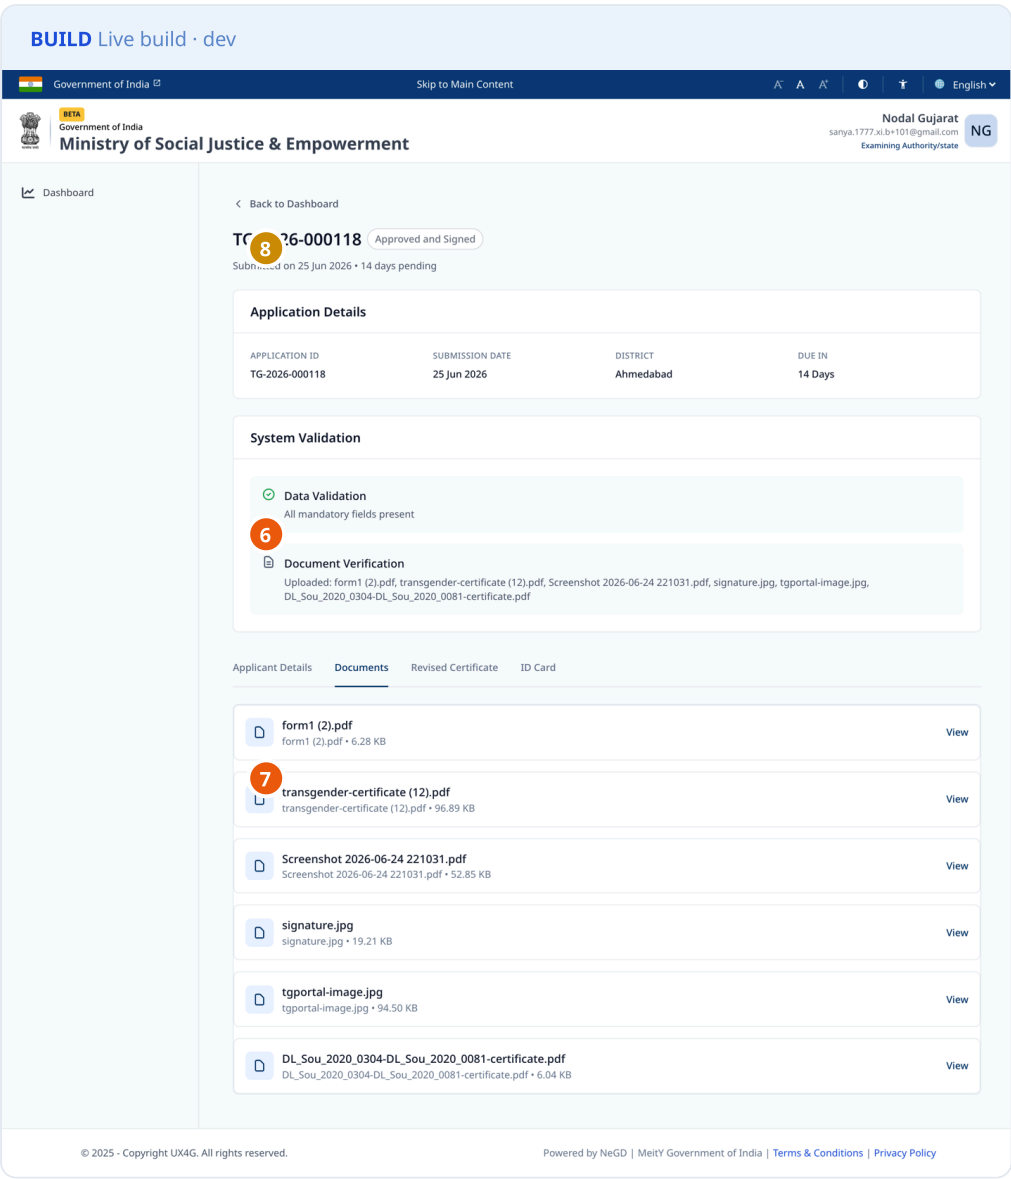

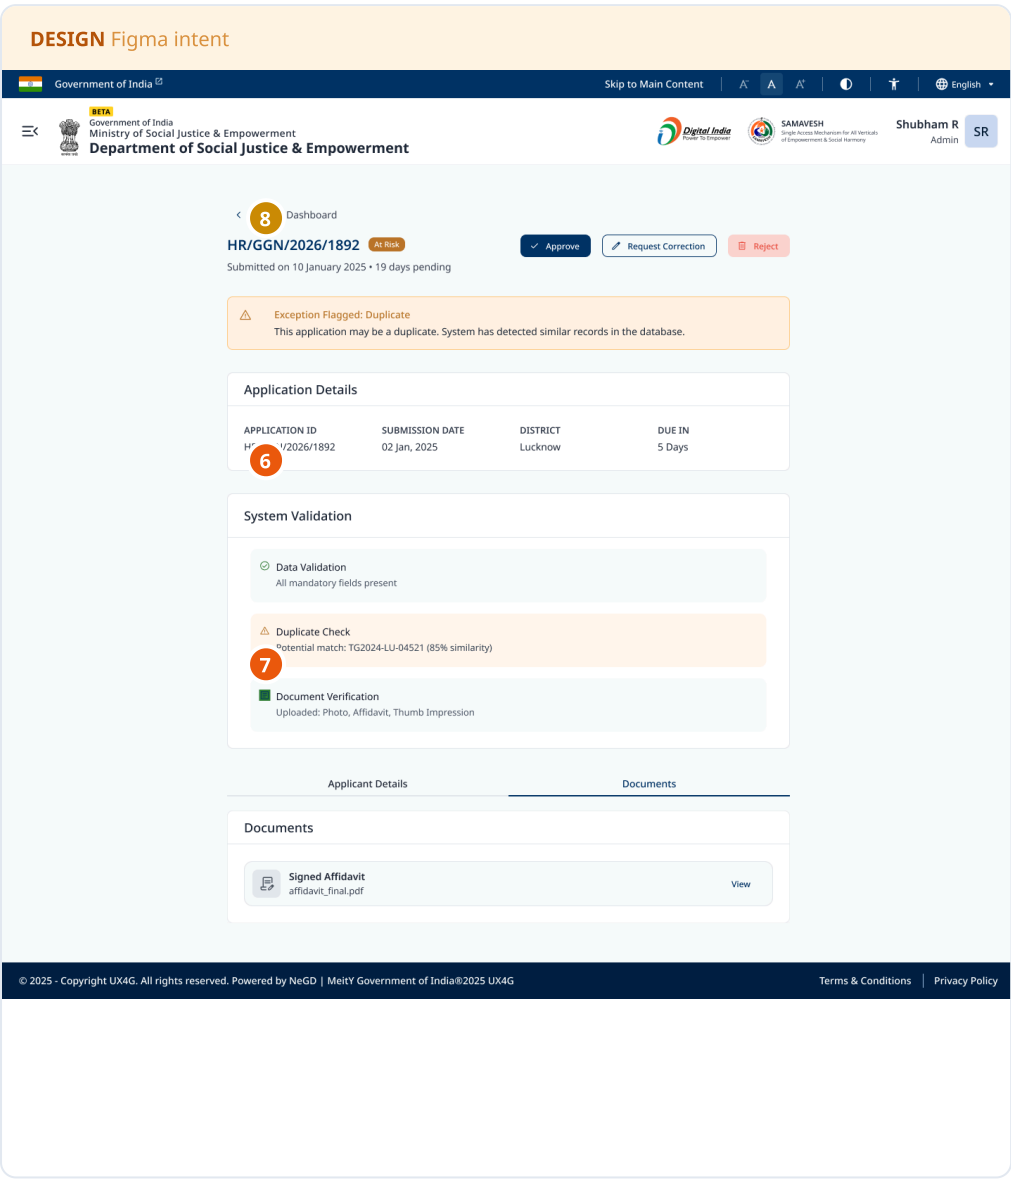

FIX
Standardise all data-table headers to the neutral-gray header token; drop the blue tint on the management tables.

SCOPE: GLOBALMinorTG-GLOBAL-005

△ Scope: Global — these elements repeat across the portal; fix once. The board shows a representative frame (Examining Officer — Application Documents) — open it via 'Figma frame 7'; each marker's number matches its TG-GLOBAL id.

Global · Application review — validation & documents · Scope: Global — repeats across the portal

TG-GLOBAL-006 – TG-GLOBAL-008

National Portal for Transgender Persons — Design QC · 2026-07-10

Figma frame 7 Live page 7

6 System Validation omits the Duplicate Check row

SCOPE: GLOBAL

Major

TG-GLOBAL-006

Components & States · Global — applies to every screen with this element

DESIGN — FIGMA INTENT

System Validation lists three checks — Data Validation, Duplicate Check (with the match + similarity score, e.g. 'Potential match: TG2024-LU-04521 (85% similarity)') and Document Verification.

BUILD — LIVE

The build shows only Data Validation and Document Verification — the Duplicate Check row is absent, so the duplicate-detection signal never reaches the reviewer. Repeats on every role's application review screen.

FIX

Restore the Duplicate Check row in System Validation with its match reference + similarity status. Applies to every role's application review screen.

7 Documents listed by raw upload filename, not semantic label

SCOPE: GLOBAL

Major

TG-GLOBAL-007

Content & Iconography · Global — applies to every screen with this element

DESIGN — FIGMA INTENT

Each document is listed by its semantic name — 'Signed Affidavit', 'Aadhaar Card', 'Passport Photo' — with a matching document-type icon.

BUILD — LIVE

The build lists raw upload filenames ('form1 (2).pdf', 'Screenshot 2026-06-24 221031.pdf', 'tgportal-image.jpg') against a generic file glyph, so a reviewer cannot tell which document is which without opening each one. Repeats on every role's Documents tab.

FIX

Label each document by its semantic type with the matching type icon and keep the filename as secondary text. Applies to every role's Documents tab.

8 Exception Flagged banner never rendered

SCOPE: GLOBAL

Minor

TG-GLOBAL-008

Components & States · Global — applies to every screen with this element

DESIGN — FIGMA INTENT

When the system detects a similar record the screen surfaces an amber 'Exception Flagged: Duplicate' banner above the application, explaining the match.

BUILD — LIVE

The build never renders the exception banner, so flagged applications look identical to clean ones.

FIX

Render the exception banner when the duplicate/exception check trips, per the design.

DESIGN Figma intent

BUILD Live build · dev

1

Role-tab switcher removed

Major

TG-CIT-SIGNIN-001

Components & States

DESIGN — FIGMA INTENT

The login card leads with a three-way role switcher — Citizen · Admin · Garima Greh — with Citizen active.

BUILD — LIVE

The citizen build renders no role tabs; the card opens straight into the 'Log In to your account' heading.

FIX

Restore the Citizen / Admin / Garima Greh role-tab switcher at the top of the login card, per the design frame.

2

Extra Mobile Number field

Major

TG-CIT-SIGNIN-002

Components & States

DESIGN — FIGMA INTENT

The design offers a single Email field under 'or sign in with credentials', then a Send OTP button.

BUILD — LIVE

The build inserts a second 'Mobile Number' field (with its own 'or' divider) below the Email Id field — absent from the design.

FIX

Align to the design's single-field pattern, or update the design frame if the Mobile Number entry is a deliberate addition.

3

Heading casing ('Log In' vs 'Log in')

Minor

TG-CIT-SIGNIN-003

Typography

DESIGN — FIGMA INTENT

The heading reads 'Log in to your account' (sentence case).

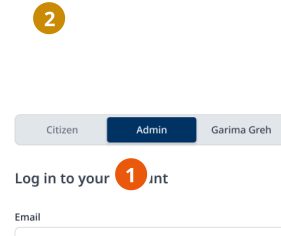

BUILD — LIVE

The build renders 'Log In to your account' — 'In' is capitalised.

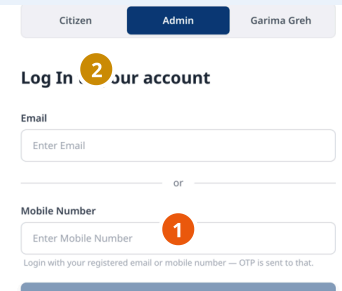

FIX

Match the design's sentence-case heading: 'Log in to your account'.

DESIGN Figma intent

BUILD Live build · dev

1 Extra Mobile Number field

Major

TG-ADM-SIGNIN-001

Components & States

DESIGN — FIGMA INTENT

The design offers a single Email field, then a Send OTP button.

BUILD — LIVE

The build adds a second 'Mobile Number' field (with an 'or' divider) below Email — absent from the design.

FIX

Align to the design's single Email-field pattern, or update the design frame if Mobile Number entry is a deliberate addition.

2 Heading casing

Minor

TG-ADM-SIGNIN-002

Typography

DESIGN — FIGMA INTENT

The heading reads 'Log in to your account' (sentence case).

BUILD — LIVE

The build renders 'Log In to your account' — 'In' is capitalised.

FIX

Match the design's sentence-case heading: 'Log in to your account'.

⚠ Portal-wide Global findings apply to this screen (masthead co-branding, KPI cards, tables, pagination — see the Global section). Design | build shown for review; open the Figma frame ↗ for the intended design.

1 Form grid drops from 3 columns to 2

Minor

TG-CIT-APPLY-IDENTITY-001

Layout & Spacing

DESIGN — FIGMA INTENT

Self-Perceived Identity and Permanent Address lay out on a 3-column field grid.

BUILD — LIVE

The build uses a 2-column grid, making the form noticeably taller and pushing the primary action below the fold.

FIX

Match the design's 3-column field grid on the identity step.

2 Correspondence-address control changed from a checkbox to Yes/No buttons

Minor

TG-CIT-APPLY-IDENTITY-002

Components & States

DESIGN — FIGMA INTENT

A single checkbox reads 'My Current / Correspondence address is the same as my Permanent address.'

BUILD — LIVE

The build asks 'Is your correspondence address the same as your permanent address?' with Yes/No toggle buttons.

FIX

Use the design's single checkbox for the correspondence-address control.

3 Bottom-left action is 'Back'; the design says 'Cancel'

Minor

TG-CIT-APPLY-IDENTITY-003

Components & States

DESIGN — FIGMA INTENT

The bottom-left control on the step is 'Cancel'.

BUILD — LIVE

The build renders 'Back' instead.

FIX

Relabel the bottom-left control to 'Cancel' per the design.

4 Active step marker is an outlined ring, not a solid disc

Minor

TG-CIT-APPLY-IDENTITY-004

Components & States

DESIGN — FIGMA INTENT

The active step is a solid navy disc with a white numeral.

BUILD — LIVE

The build renders the active step as an outlined ring, so it reads like an inactive step.

FIX

Give the active step the design's solid navy fill + white numeral.

△ Portal-wide Global findings apply to this screen (masthead co-branding, KPI cards, tables, pagination — see the Global section). Design | build shown for review; open the Figma frame ↗ for the intended design.

⚠ Portal-wide Global findings apply to this screen (masthead co-branding, KPI cards, tables, pagination — see the Global section). Design | build shown for review; open the Figma frame ↗ for the intended design.

DESIGN Figma intent

BUILD Live build · dev

1 Welfare Benefits cards wrap to a second row

Minor

TG-CIT-DASH-001

Layout & Spacing

DESIGN — FIGMA INTENT

All four benefit cards — Scholarships, Skill Training, Garima Greh, Medical Support — sit in a single 4-up row.

BUILD — LIVE

The build's cards are wider, so only three fit and Medical Support wraps onto a second row.

FIX

Match the design's 4-up Welfare Benefits grid so the row doesn't wrap.

2 Sidebar nav has no icons and omits 'Scholarships'

Minor

TG-CIT-DASH-002

Components & States

DESIGN — FIGMA INTENT

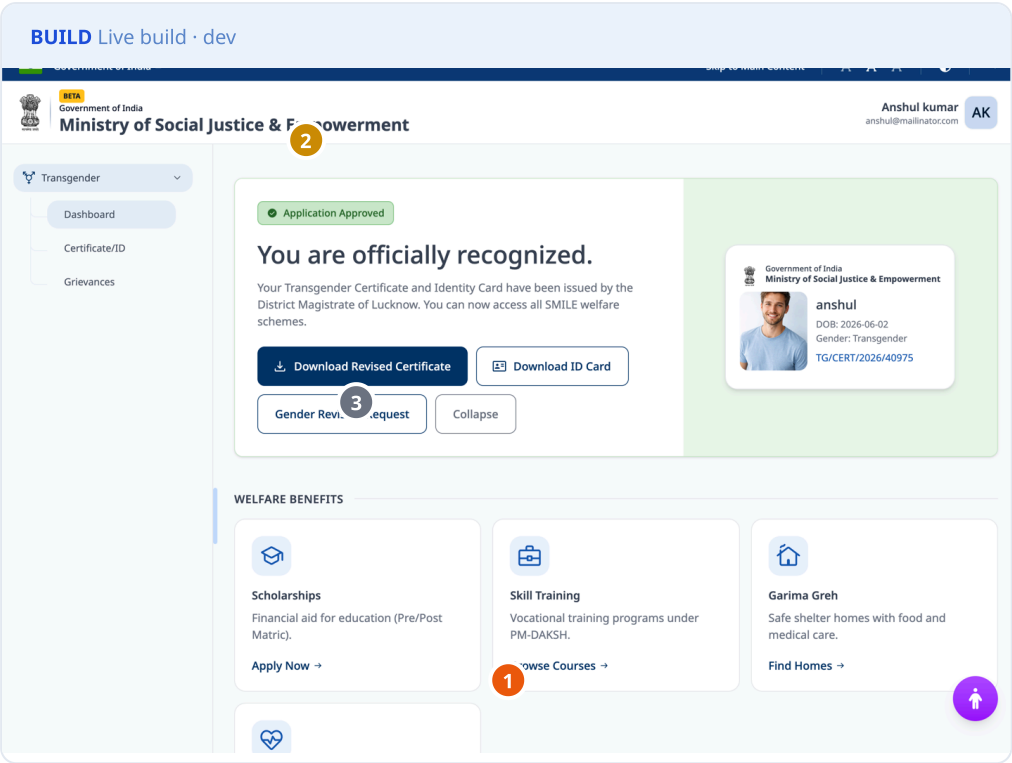

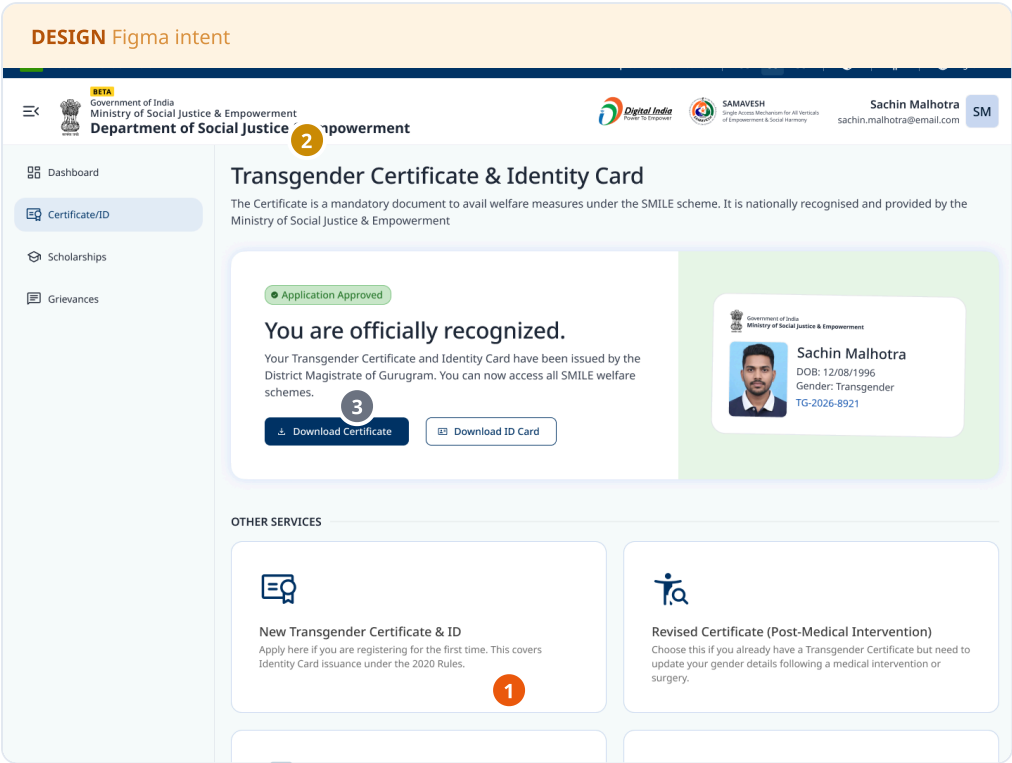

The sidebar lists Dashboard / Certificate/ID / Scholarships / Grievances, each with a leading icon.

BUILD — LIVE

The build's sidebar has no per-item icons and drops the Scholarships entry (it shows a 'Transgender' scheme dropdown above the list instead).

FIX

Restore the per-item sidebar icons and the Scholarships nav entry per the design.

1 'Other Services' section replaced by the dashboard's Welfare Benefits

Major

TG-CIT-CERT-DETAIL-001

Components & States

DESIGN — FIGMA INTENT

The certificate page carries an OTHER SERVICES section with four lifecycle actions — New Transgender Certificate & ID, Revised Certificate (Post-Medical Intervention), Correction or Update Existing Details, and Withdraw a Pending Application.

BUILD — LIVE

The build renders the dashboard's Welfare Benefits cards here instead, so none of the certificate lifecycle actions are reachable from this page.

FIX

Restore the Other Services section (New certificate · Revised certificate · Correction/Update · Withdraw) on the certificate page per the design.

2 Page title and intro paragraph dropped

Minor

TG-CIT-CERT-DETAIL-002

Typography

DESIGN — FIGMA INTENT

The page opens with the title 'Transgender Certificate & Identity Card' and an explanatory paragraph about the certificate.

BUILD — LIVE

The build starts straight at the approval card — no page title or intro copy.

FIX

Render the page title and intro paragraph per the design.

3 Action button set differs from the design

Nit

TG-CIT-CERT-DETAIL-003

Components & States

DESIGN — FIGMA INTENT

The approval card offers 'Download Certificate' and 'Download ID Card'.

BUILD — LIVE

The build offers 'Download Revised Certificate', 'Download ID Card', 'Gender Revision Request' and 'Collapse'.

FIX

Confirm the extra actions are intended and align the primary label with the design.

⚠ Portal-wide Global findings apply to this screen (masthead co-branding, KPI cards, tables, pagination — see the Global section). Design | build shown for review; open the Figma frame ↗ for the intended design.

[Figma frame](#) [Live page](#)

1 Track / status page is not built — the route lands on the dashboard

MajorTG-CIT-TRACK-001

Components & States

DESIGN — FIGMA INTENT

A Track page shows the application progress stepper (Submitted → In Scrutiny → Approval → Certificate Generation) with the current step highlighted, plus Withdraw Application, Correction Request and View Full Application actions.

BUILD — LIVE

The build's track route renders the citizen dashboard instead — the progress stepper and its three actions do not exist anywhere in the build.

FIX

Build the track/status page per the design frame, including the progress stepper and the Withdraw / Correction Request / View Full Application actions.

⚠ No design frame in the audited section — audited against the design-system visual language; the portal-wide Global findings apply.

1 'Classification' column dropped

Minor

TG-EOD-001

Components & States

DESIGN — FIGMA INTENT

The design Maker queue has a Classification column (Clean / Exception badges) flagging exception applications.

BUILD — LIVE

The build omits the Classification column, so triage exceptions aren't visible in the list.

FIX
Show the Classification column per the design (low priority — the build shows fewer columns than the design).

2 Queue filters missing

Minor

TG-EOD-002

Components & States

DESIGN — FIGMA INTENT

The design queue header carries All Classifications / All Types / All Status filter dropdowns.

BUILD — LIVE

The build has only a search box + a State/District toggle.

FIX
Surface the relevant queue filters per the design.

Figma frame ↗ Live page ↗

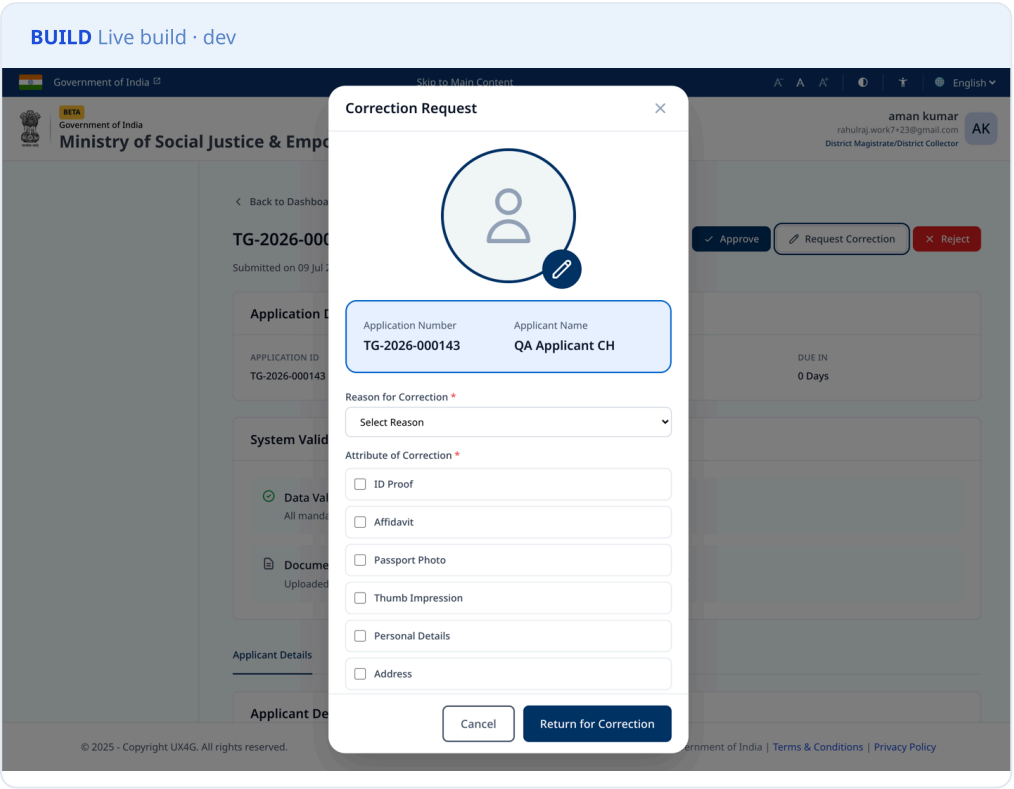

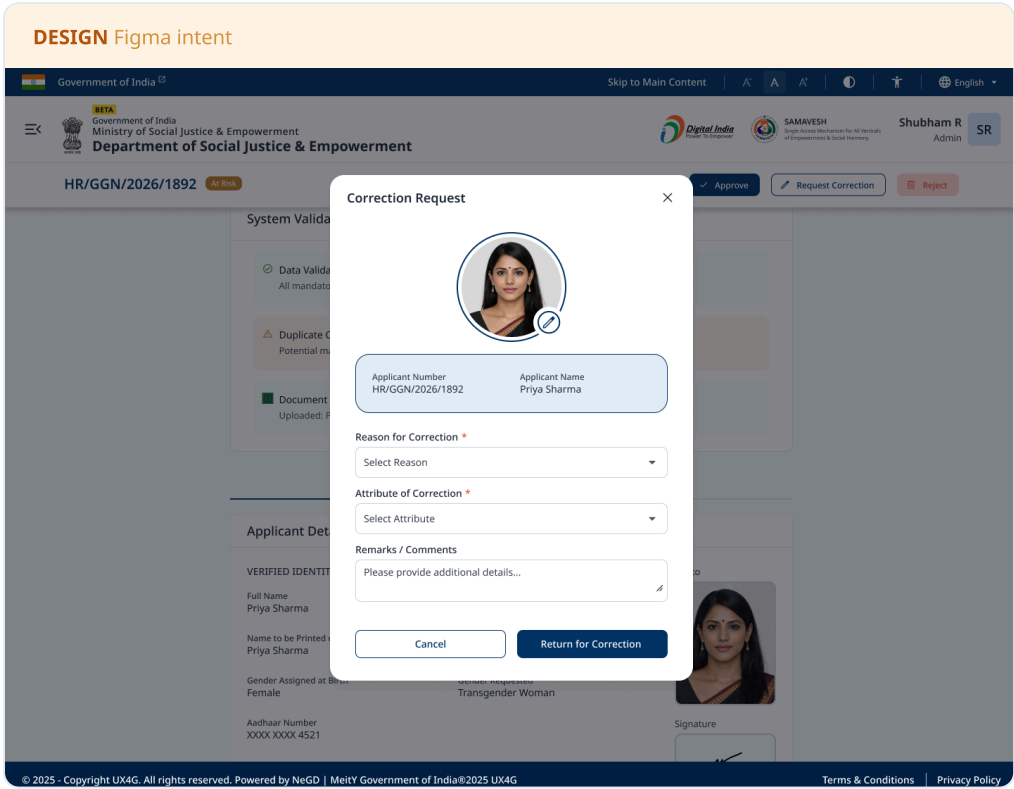

District Magistrate — Request-Correction modal

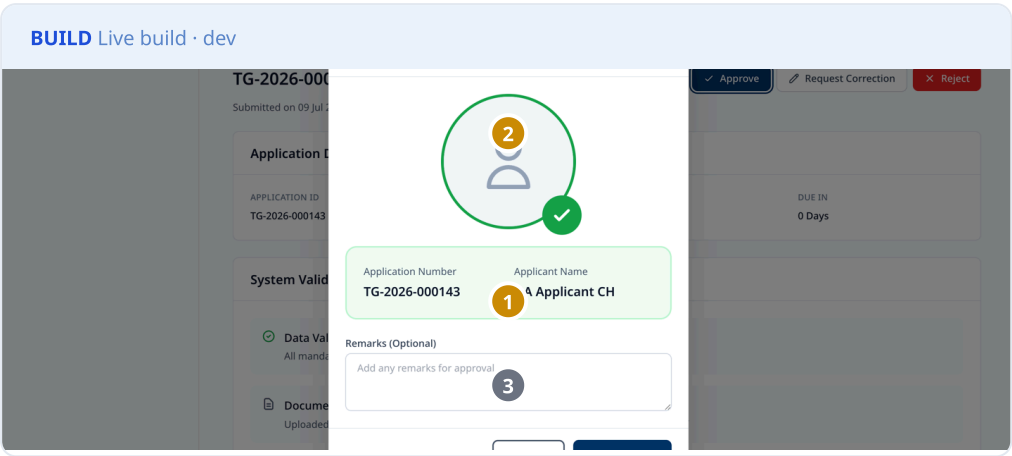

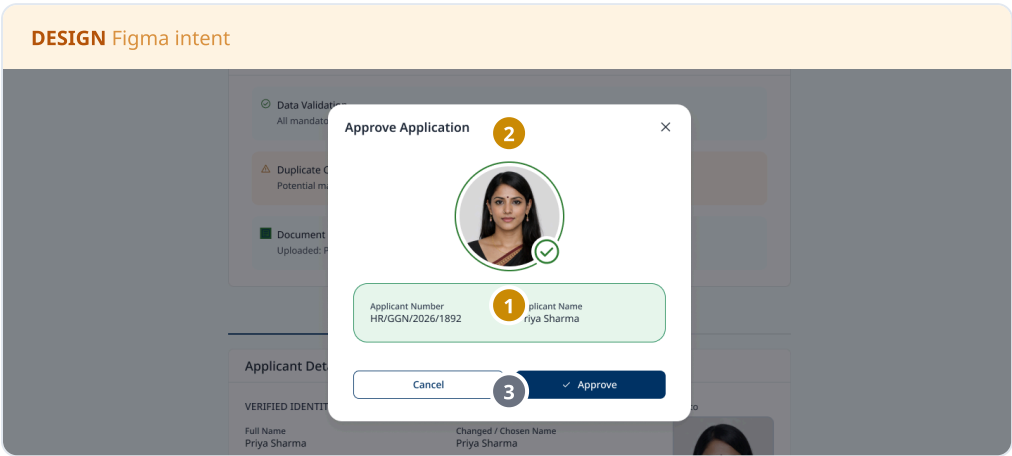

coverage

⚠ Portal-wide Global findings apply to this screen (masthead co-branding, KPI cards, tables, pagination — see the Global section). Design | build shown for review; open the Figma frame ↗ for the intended design.

District Magistrate — Request-Correction modal · design | build

coverage

1 Applicant info box uses a neutral tint, not the design's success tint

Minor

TG-DM-MODAL-APPROVE-001

Color & Token

DESIGN — FIGMA INTENT

The applicant confirm box is green-tinted with a green border, reinforcing the approve action.

BUILD — LIVE

The build renders a neutral grey box, losing the success affordance.

FIX

Apply the design's success tint + border to the applicant confirm box.

2 Applicant photograph not rendered in the confirm modal

Minor

TG-DM-MODAL-APPROVE-002

Content & Iconography

DESIGN — FIGMA INTENT

The modal shows the applicant's photograph with a success check, so the approver can verify identity before committing.

BUILD — LIVE

The build renders a generic placeholder avatar instead of the applicant's uploaded photo.

FIX

Render the applicant's photograph in the approve modal; confirm whether the placeholder is only a test-data artefact.

3 Build adds a 'Remarks (Optional)' field

Nit

TG-DM-MODAL-APPROVE-003

Components & States

DESIGN — FIGMA INTENT

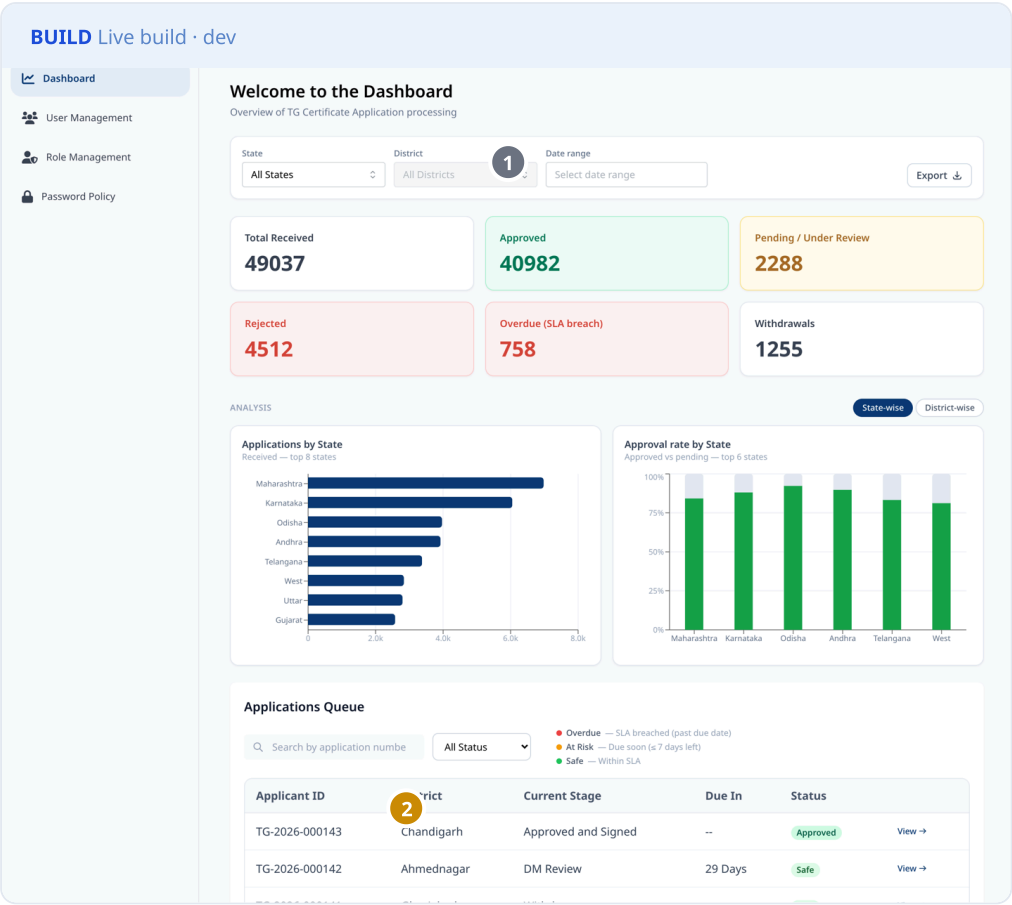

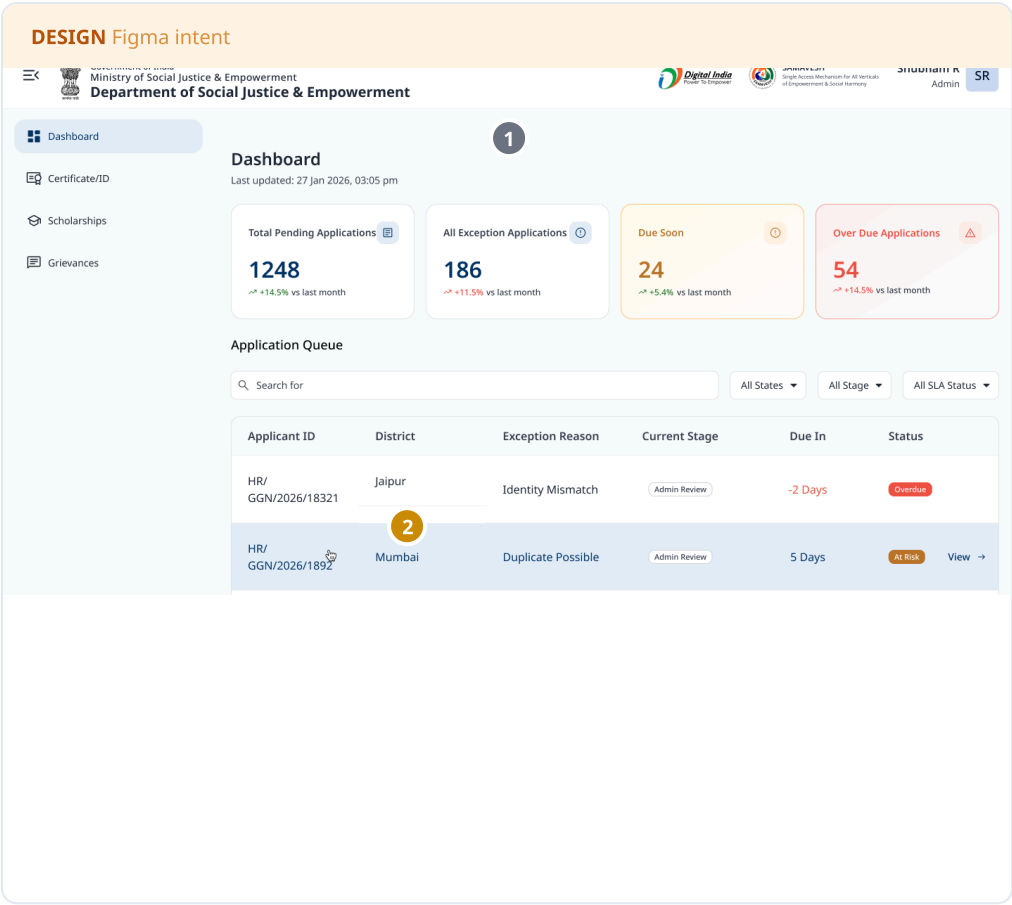

The approve modal has no remarks input.

BUILD — LIVE

The build adds a 'Remarks (Optional)' textarea before the actions.

FIX

Confirm the remarks field is intended; if so, add it to the design frame.

1 Global filter bar sits above the KPI cards

NitTG-CAD-001

Layout & Spacing

DESIGN — FIGMA INTENT

The design keeps the State / District / Date-range filters inside the Application Queue card.

BUILD — LIVE

The build floats a global filter bar ABOVE the KPI cards; it is a richer analytics dashboard (6 KPIs + State/District charts) vs the design's 4-KPI exception queue.

FIX
Confirm the analytics layout is intended — the extra KPIs/charts are build-only (audit vs the visual language, don't remove).

2 Confirm analytics chart palette uses TG tokens

MinorTG-CAD-002

Color & Token

DESIGN — FIGMA INTENT

Charts should use TG tokens — Primary/Source #003366 for bars, Success/Source #2e7d32 for the approval-rate series.

BUILD — LIVE

Chart series may use raw greens/blues rather than the TG token palette.

FIX
Verify the chart palette against the TG tokens; the charts are a build-only section audited vs the visual language.

National Portal for Transgender Persons — Design QC · 2026-07-10

[Figma frame ↗](#) [Live page ↗](#)

1

Persistent expanded admin sidebar narrows the content

Minor

TG-AD-001

Layout & Spacing

DESIGN — FIGMA INTENT

The design detail page is full-width (sidebar collapsed to a hamburger); the examining-officer / DM detail pages have no sidebar (match the design).

BUILD — LIVE

The central-admin detail page keeps the admin sidebar expanded, narrowing the content column.

FIX
Confirm the central-admin sidebar on detail views is intended; otherwise collapse it to match the design.

2

Detail tab set differs (2 design / 4 build)

Nit

TG-AD-002

Components & States

DESIGN — FIGMA INTENT

The design detail has 2 tabs: Applicant Details, Documents.

BUILD — LIVE

The build has 4 tabs — it adds Revised Certificate and ID Card.

FIX
Build-extra — confirm if intended.

⚠ Portal-wide Global findings apply to this screen (masthead co-branding, KPI cards, tables, pagination — see the Global section). Design | build shown for review; open the Figma frame ↗ for the intended design.

The image shows a web application interface for 'BUILD Live build · dev'. The top navigation bar is dark blue with the 'BUILD' logo in white, followed by 'Live build · dev'. Below this, a secondary bar contains the Indian flag, 'Government of India', a 'Skip to Main Content' link, font size controls, a search icon, and a language dropdown set to 'English'. The main header area includes the Government of India emblem, a 'BETA' badge, the text 'Government of India Ministry of Social Justice & Empowerment', the user 'Admin Admin' with email 'swatikaushal4322@gmail.com' and role 'Centre level', and a user profile icon labeled 'AA'. A left sidebar lists navigation items: 'Dashboard', 'User Management', 'Role Management', 'Password Policy' (highlighted with a lock icon), and 'Tenants'. The main content area is titled 'Password Policy' and contains a form with the following fields: 'Password History Count*' (value 5), 'Password Complexity Level*' (value 1), 'Minimum Password Length*' (value 8), 'Allowed Special Characters*' (value '1234567890!@#\$%^&*()'), and 'Maximum Invalid Login Attempts*' (value 5). Below these are three toggle switches for 'Require Alphabetical Characters', 'Require Numerical Characters', and 'Require Special Characters', all currently turned off. An 'Update Policy' button is at the bottom of the form. The footer contains copyright information '© 2025 - Copyright UX4G. All rights reserved.', a power-by statement 'Powered by NeGD | MeitY Government of India', and links to 'Terms & Conditions' and 'Privacy Policy'.
