SCREENS

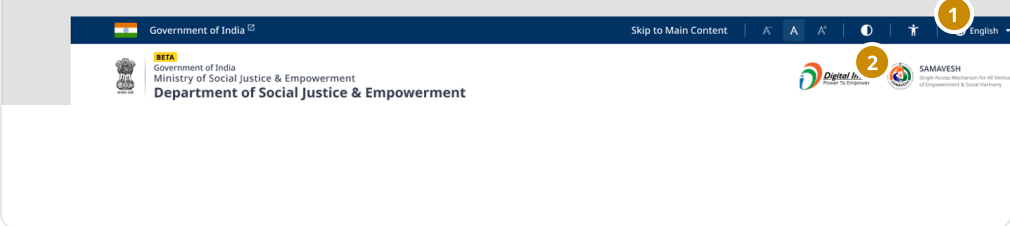

Each finding is pinned on the side-by-side screenshots and detailed below with its exact fix and severity.

⚠ Build panels render once captures/live/login.png is saved. 2 findings deferred by decision — SAM-LOGIN-001 (email-OTP is the approved login; Figma to be updated) and SAM-LOGIN-002 (hero photograph, parked).

Login · Top bar & masthead

SAM-LOGIN-004 – SAM-LOGIN-003

DESIGN Figma intent

BUILD Live build

Live build capture pending
save the capture and re-run

SAMAVESH Login — Design QC · 2026-06-12

Figma frame ↗

1 Accessibility toolbar icon

Minor

SAM-LOGIN-004

Content & Iconography

DESIGN — FIGMA INTENT

Contrast toggle followed by a dedicated accessibility (person) icon.

BUILD — LIVE

Contrast toggle followed by an info (i) icon.

FIX

Use the accessibility-options icon per design, or confirm the info icon is intended.

2 Masthead partner logos

Minor

SAM-LOGIN-003

Content & Iconography

DESIGN — FIGMA INTENT

Two partner logos on the right: Digital India + SAMAVESH.

BUILD — LIVE

Three logos: गरिमा गृह (Garima Greh) + Digital India + SAMAVESH.

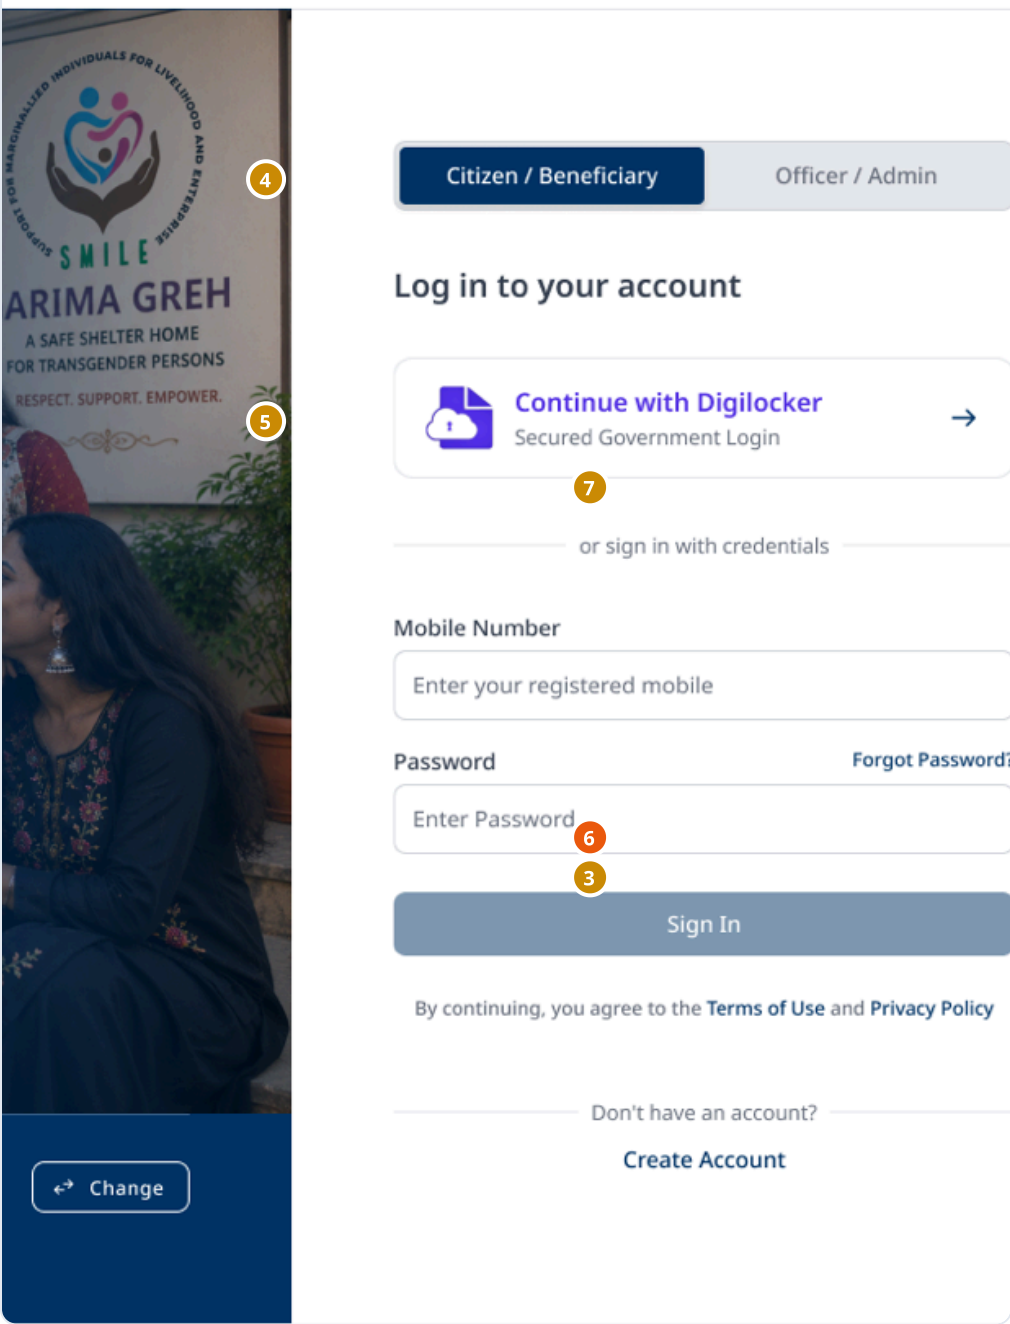

FIX

Likely intentional (contextual to the signed-in portal). Confirm; if so, add the Garima Greh logo to the design frame for parity.

Login · Right login panel

SAM-LOGIN-005 – SAM-LOGIN-009

DESIGN Figma intent

BUILD Live build

Live build capture pending
save the capture and re-run

Figma frame ↗

3 Login panel balance

Minor

SAM-LOGIN-005

Layout & Spacing

DESIGN — FIGMA INTENT

The form block (tabs → CTA → fields → button → links) fills the right panel.

BUILD — LIVE

The shorter email-OTP form is top-aligned, leaving a large empty area below 'Send OTP'.

FIX

Vertically centre the form block within the right panel so it reads as balanced.

4 Heading size (verify)

Minor

SAM-LOGIN-006

Typography

DESIGN — FIGMA INTENT

'Log in to your account' ≈ 20px Medium, dark navy (Title-1 / Headline-4 token).

BUILD — LIVE

Heading reads noticeably larger and heavier.

FIX

Match the heading to the design token (≈20px Medium). Confirm exact size from the build capture.

5 Required-field asterisks

Minor

SAM-LOGIN-007

Content & Iconography

DESIGN — FIGMA INTENT

Field labels carry no required marker ('Mobile Number', 'Password').

BUILD — LIVE

Field labels carry a red required asterisk ('Registered email ID *', 'Security Check *').

FIX

Pick one convention across the system; add required markers to the design pattern or drop them in the build.

6 Primary blue token (verify)

Major

SAM-LOGIN-008

Color & Token

DESIGN — FIGMA INTENT

Primary/Source navy #003366 for the primary button and the top utility bar.

BUILD — LIVE

'Send OTP' button and the top utility bar appear to use a lighter / more saturated blue.

FIX

Confirm both bind to Primary/Source #003366. Demote to Minor (or drop) if the on-screen blue matches once sampled.

7 Input border & radius (verify)

Minor

SAM-LOGIN-009

Components & States

DESIGN — FIGMA INTENT

Inputs: 1px border ≈ Stroke/300 #d1d5db, radius-sm 6.

BUILD — LIVE

Inputs appear lighter-bordered and more rounded.

FIX

Confirm input border colour, radius and height against the design tokens from the build capture.

Deferred — by decision

2 Parked

SAM-LOGIN-001 Email + captcha + OTP instead of Digilocker / mobile+password multi-method form

Email-OTP is the approved method. Figma frame to be updated; design samples delivered separately.

SAM-LOGIN-002 Hero uses a flat navy gradient instead of the designed contextual photograph

Parked for a later pass.
